

Orchestra Supply List

In addition to his/her instrument, every orchestra student should purchase the following orchestra supplies based on their instrument. These supplies are necessary for the playing and the proper care of the instrument. If you care for your instrument and keep it clean, it will be less likely to break or need repair! **Some of these items may be included with your rental from Zeswitz. Please check to see that you do not already have an item before you buy one.**

All students will also need a Sound Innovations Level 1 lesson book for their lessons!

It is recommended that you order your supplies through Zeswitz (www.zeswitzmusic.com).
